Along with our usual varied gardening tasks we have been putting our new shredder to work, converting hedge cuttings and prunings into valuable mulch and perfect compost material.

Flying Marrows pancake

This month mixed salad has been very productive in our vegetable garden. Try our very simple and quick pancake salad recipe.

Ingredients:

2 organic eggs
125g plain flour
250g milk
Dash of oil or butter

Method:

Mix eggs, flour and milk in a bowl. Add a dash of oil to a small frying pan over a medium heat to melt. Reduce heat and pour in one ladle of mixture. Cook for two minutes, flip and cook for about 30 seconds. Roll fresh salad into the pancake. We have served ours with freshly picked and ground oregano pesto.
